How do we create inviting and meaningful environments that promote, engage and sustain children's learning through play?

This session explores the importance of creating spaces that nurture and inspire whilst facilitating learning.

In this session we will explore:

- The key elements of quality learning environments indoors and outdoors
- Considerations for design, set up, materials and equipment
- The importance of open ended learning
- Supporting children to resource their own learning
- Planning for ongoing modifications
- Intentional teaching

You will also see examples of how to add and use everyday materials within a realistic budget to assist children in their learning, engagement and exploration both indoors and outdoors.

This PD is for those educators who want to offer an inviting, collaborative and engaging environment.
