Demystifying Play-Based Learning by Dr Michael Nagel PhD

Dr Michael Nagel is one of Australia's leading education commentators. In this seminar he explores the exciting world of brain science and examines how scientific evidence about the brain can be used to guide practice, whilst observing the evidence behind the importance of play.

An understanding of neuroscience and its practical application will help to guide your practice to better meet the behavioural, developmental and educational needs of the children you work with.

Is this Child Ready for Kindergarten or School?

How do we know if a child is ready for kindergarten or school? What is expected in the first year of school? There are a number of elements to be considered with these decisions. We will explore the following aspects of readiness in this session:

- Maturation and development
- Temperament
- Child's position in the family
- Philosophical attitude to education
- Decision making process and planning ahead

This session is ideal for teachers who are working with children aged 3 to 5
