What can we do to build children's resilience?

Research shows that social and emotional learning has significant academic and lifelong benefits. Children who are self-aware and confident try harder and are more resilient.

This session gives a practical overview on the importance of Social and Emotional Learning with a focus on how individualised and holistic pedagogies support:

- Relationships
- Personalities and stages of social and emotional development
- Self-awareness, self-management and responsible decision making
- Emotional IQ

This PD session is suitable for teachers and leaders wanting to enhance and support children's social and emotional learning in the early childhood and primary years.
